DETAILED ACTION

Information Disclosure Statement

1. The information disclosure statement (IDS) submitted on 2/10/04 was filed after the mailing date of the present application. The submission is in compliance with the provisions of 37 CFR 1.97. Accordingly, the information disclosure statement is being considered by the examiner.

Allowable Subject Matter

2. Claims 1-14 are allowed.

3. The following is an examiner's statement of reasons for allowance:

The prior art of record fail to disclose a method of testing a memory for faults, comprising writing a pattern of bits to a first memory block comprising a first plurality of bits of memory; writing the pattern of bits to a second memory block comprising a second plurality of bits of memory; reading the first plurality of bits of memory from the first memory block as a first plurality of read bits; reading the second plurality of bits of memory from the second memory block as a second plurality of read bits; and comparing each one of the first plurality of read bits with a corresponding one of the second plurality of read bits as recited in claim 1.

~~Claims 2-10 are therefore allowed because of their dependency on claim 1.~~

The prior art of record further fail to disclose a method for dynamically testing and repairing a memory comprising testing a plurality of blocks of memory to identify a first faulty memory block; identifying a spare memory block that has not been permanently remapped and that has not been temporarily remapped to replace a second faulty memory block; and

Art Unit: 2824

temporarily remapping the spare memory block to replace the first faulty memory block as recited in claim 11.

Claims 12-14 are therefore allowed because of their dependency on claim 11.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
